

Project

Goal #1

Full data cycle
on cloud

1 Run queries on public datasets

Data Exploration
Colab

2 Explore/Visualize public datasets

BigQuery (SQL)

3 Predict using Machine Learning

Cloud Machine
Learning

Notes

- Concepts are the key. Easy to go 'cloud hopping'
- Key goal: Do (a) full data cycle, (b) for 10s-100s of GBs of real data

Summary

When you finish
Project ...

- Full Query-Visualize-Learn data cycle on cloud stack
 - Work on 10s-100s of GBs of data on 100s of machines in cluster
 - See examples of multiple real datasets (COVID, ncaa, github, WorldBank, ...)
 - Work with popular SQL/Visualization/Learning libraries
 - Gain intuition of scale, performance, pain and costs in running 100s of queries

- Hop-Skip-Jump to any cloud stack or application based on same concepts

1. Public datasets: [q = [“BigQuery public dataset”](#)]
2. Explore [public datasets](#) (COVID, NCAA, Weather, Hurricanes, Blockchain...)
3. Let's pick
 - a. [[COVID](#)]
 - [[Schema](#)]

Sample projects from
2018 and 2019

- When is best time to get away with murder?
- Which cities are at risk for rising pollution?
- Election Ads in 2016
- What factors influence how much a patient pays for their treatment/drug requirements?

⇒ Last year, many strong projects. Students said project helped their internship/jobs experience.

Signup for GCP

Dear Students,

Here is the URL you will need to access in order to request a Google Cloud Platform coupon. You will be asked to provide your school email address and name. An email will be sent to you to confirm these details before a coupon is sent to you.

...

- You will be asked for a name and email address, which needs to match the domain. A confirmation email will be sent to you with a coupon code.
- You can request a coupon from the URL and redeem it until: **1/23/2021**
- Coupon valid through: **9/23/2021**
- You can only request ONE code per unique email address.

Please contact me if you have any questions or issues.

1. Signup with stanford.edu email
2. You'll get a 50\$ coupon in 1-2 minutes
3. Apply to your GMAIL account (signup if you don't have one), **NOT** Stanford account
4. RECOMMEND: separate browser profile

Dear Shiva,

Here is your Google Cloud Platform Coupon Code: **0T8L-UFTY-8N7DYM**

Click [\[here\]](#) to redeem.

Course/Project Information

Instructor Name: **Shiva Shivakumar**

Email Address: **shiva@cs.stanford.edu**

School: **Stanford**

Course/project: **CS 145**

Activation Date: **9/21/2018**

Redeem By: **1/21/2019**

Coupon Valid Through: **9/21/2019**

If you have any questions, please contact your course instructor as listed above.

Thanks,

Google Cloud Platform Education Grants Team
